There Again | Full Stack Web Developer | August 2017

A binary system for business rating/review full stack web application. Users can search for businesses by name and city, and add them to their list of saved businesses, flagging them as either "There Again" or "NOT There Again". Powered by the Yelp Fusion API. Create, Read, and Delete. Signup and Login/Logout.

Cabela's | Social Compliance Auditor | February 2015 - April 2016

Coordinated a cross-functional international team to ensure social compliance requirements were included in the responsible global sourcing strategy. Collected, analyzed, and reported company Conflict Minerals data in compliance with Section 1502 of the Dodd-Frank Act. Communicated daily with internal and external stakeholders at all levels of organizations on matters related to Social Compliance and Conflict Minerals. Received recognition for developing a process of identifying new vendors and factories from multiple sources of data, as well as managing social compliance and conflict minerals data associated with vendors and factories.
