EXPERIENCE

BrewsCruise | Full Stack Web Developer | September 2017 - Present
Developed an Angular 4 app serving as a community resource list of hot springs in Colorado. App includes create, read, update, and delete functionality. Hot springs data currently being provided through Angular's In Memory Web API and In Memory Data Service while I build out my own hot springs API which will be hosted for my app to consume as well as open to the public for future projects.

TriSynergy Consulting LLC | Freelancer | September 2017 - Present
Redesigned client's existing website to be fully responsive for improved experience on all platforms. Included Google Analytics and SEO.

Foodr | Full Stack Web Developer | August 2017
Collaborated as a member of a developer team to build a SEAN stack app. Incorporated geolocation functionality and wrote API calls to Google Places API utilizing latitude and longitude collected from the geolocation of the user device.

There Again | Full Stack Web Developer | August 2017
Developed a full stack app built around the Yelp Fusion API, using MongoDB, Mongoose, Express, and Node. App includes create, read, and delete functionality as well as signup and login/logout through passport authentication.

Cabela's | Social Compliance Auditor | February 2015 - April 2016
Coordinated a cross-functional international team to ensure social compliance requirements were included in the responsible global sourcing strategy. Collected, analyzed, and reported company Conflict Minerals data in compliance with Section 1502 of the Dodd-Frank Act. Communicated daily with internal and external stakeholders at all levels of organizations on matters related to Social Compliance and Conflict Minerals. Received recognition for developing a process of identifying new vendors and factories from multiple sources of data, as well as managing social compliance and conflict minerals data associated with vendors and factories.
